SANTA ANA, CALIFORNIA, OCTOBER 14, 1938

No. 33

## From Where We Sit--

by ED VELARDE

Yesterday's El Diario carried the following notice:  
"Attention all students! Our school needs a new decalco-ania transfer (car stickers). The contest is open to all students and a prize of \$3.00 is to be given to the winner."

Although we're not trying to all the college what should be one, it does seem grossly out of line when this proposition of wanting to change a "land-mark" which distinguishes Santa Ana J. C. from other jaysees in Southern California.

El Don is unalterably opposed to the changing of the on sticker.

Our reasons are many. The familiar round red and black sticker is recognized by all of Orange county and by other jaysees in the Eastern conference. Automobiles having the sticker on their windshields stand out—and people know where the car comes from—Santa Ana Junior college!

Even as far north as Berkeley where many former students are now attending college, people know of the jaysee through those stickers. In September I was in San Francisco, and to see the familiar sticker was a sight for sore eyes—and did see lots of them. Why? Because it was distinctive!

It would take a long time for townspeople and others to become accustomed to a new sticker. In the first place, the present one is fully adequate and serves the purpose.

Opinion of many students on the campus is for the stickers not to be changed. Suggestion: Why not get out a petition asking the executive board to table the matter?

## 37 Register Here For Class Work

Miss Mabel G. Whiting, jaysee registrar, today stated that the total number of students enrolled for this semester is 937. The figure, which includes all students taking post graduate work and all special students, exceeds the number enrolled last year for the same period by 123 students.

## ADDRESSES CONFAB

DR. LOUIS P. THORPE of the department of Education at the University of Southern California, will be the main speaker at the Southern California Junior college conference tomorrow which local instructors will attend.

# 1100 WANT JAYSEE BOND VOTE

## Kangaroo Court Plans Ready

### Two Hour Session To 'Try' Frosh

Wayward freshmen trembled today as completion of the Kangaroo court plans was announced by Roy Potter, chairman of the executive committee. The court is scheduled to be held in the Willard Junior high school auditorium, the two hour session beginning at 10 a. m. Wednesday, October 26. Freshmen will be required to attend.

Besides Potter as chairman, members of the executive committee are Frank Was, Peggy Paxton, Jack Brourink, and Josephine Butler. The committee, (Continued on page 3)

### Drop Noted Among Out-of-Staters

Out-of-state enrollment dropped 19 today over the corresponding period a year ago, a check of local registration revealed this morning. Only 72 are enrolled as compared to 91 last year.

Among those who have matriculated from the farthest points are Evelyn Rice of Camden, N. Y., and John Smith of High Point, North Carolina. Nearly every state is represented by one or more students.

About a dozen hail from Idaho Falls, Idaho, to set a record number from one town, it was disclosed.

### Plan Beta Gamma Meeting Tuesday

For the purpose of discussing their semi-annual rush party, members of Beta Gamma, honorary society, will meet Tuesday at the home of Mr. and Mrs. John Tesson, 309 East Seventeenth street.

Beta Gamma limits their membership to 5 per cent of the student body. These students are chosen for outstanding extra-curricular activities and high scholastic ability, it was stated.

### Subscribe \$464 To Community Chest

Contributions to the Santa Ana community chest by jaysee faculty and workers reached a total of \$464.60 today, Director D. K. Hammond announced. This year's total is about \$14 more than last year's total of \$451.25.

Everyone employed by the college gave to the cause, it was stated. Janitors, teachers, and office force members all helped raise this record breaking amount for the chest organization, said Mr. Hammond.

### Local Students Take Army, Navy Exams

With an appointment to either West Point or Annapolis as their goal, young men from Orange county met at the Santa Ana post-office last week for the purpose of taking examinations embodying the subjects required for entrance to the academies.

Jaysee students who took the tests included Ben Steffins and Ernest Barrett.

### LOCAL 14-YEAR-OLD STUDENT IS GENIUS

HERBERT SULLIVAN, 14-year-old student, is pictured above explaining to a rather dumb-founded sophomore, Mary Ann Low, a difficult problem. But it's easy for Herbert because he is a child genius. Santa Ana Junior college is the first regular school Herbert has ever attended. (Story at bottom of page.)

## Jaysee Instructors Will Attend College Conference Tomorrow

At least 25 members of the jaysee faculty will attend the semi-annual meeting of the Southern California Junior college teachers at the Fullerton Junior college tomorrow.

Miss Frances Egge, head of the local art department, will act as chairman of the art discussions. Dean of Men Calvin C. Flint will serve as a member of the executive committee. His term expires in June of 1941.

The purpose of the meeting is to discuss the problems of the junior colleges which are members of the southern association and to try and arrive at a satisfactory arrangement.

Following the panel discussions, a general assembly is to be held. Dr. Louis P. Thorpe of the University of Southern California will deliver an address on "Streamlining the Modern Classroom."

### College Swing Band Plays Here Soon

Jaysee will soon boast of a first-class campus orchestra that will specialize in both "sweet" and "swing" music, Bob Baines, organizer of the organization, disclosed today. Rehearsals under the direction of Del Taylor are held each Thursday evening.

The debut of the band will be held at an after-game dance following the Pomona-Santa Ana game here next Friday night.

### Ticket Sales Break Former Record

A sales increase of 440 Associated Student tickets over last year's 405, was reported today by Mrs. Helen Deaton of the business office. This brings the total to 845, a new local record. Mrs. Deaton warned students that "no duplicates will be issued." Tickets will be forfeited if found in possession of anyone but the owner.

### Hart Named to Fill Del Ano Position

Don Hart has been appointed business manager for Del Ano, college yearbook, according to announcement made by Carroll Richardson, editor, today.

In charge of the photography work as well as handling financial duties, Hart said that commercial photographers will be employed to take all group pictures, while staff photographers will snap informal shots on the campus.

Work on Del Ano has begun, as the staff has drafted temporary lay-out plans. Staff meetings are

## Second Election Decision Rests With Board

Whether or not Santa Ana will have a second bond election to provide an answer for overcrowded campus conditions here remained uncertain today pending the outcome of a mail tabulation among interested voters.

The mail solicitation being conducted by a local citizens committee is expected to provide sufficient names to warrant the calling of a second election, it is believed. Yesterday a total of 1121 signatures had been secured on cards and petitions requesting that another campaign be launched to provide the needed college buildings.

### BOARD DECIDES

Final decision on the possibility of having a second election rests with the Santa Ana board of education, it was stated this week. The board is expected to meet within the next few days to decide the issue, it was learned.

Returns from the postal card survey and petitions circulated throughout the business district of the city indicate that civic leaders are united for another election. A petition submitted to school authorities yesterday urging a second election contained the names of 150 local members of the carpenters union.

### LOCAL COMMITTEE

The citizens committee conducting the postal card canvass to determine interest among local voters on the subject is composed of O. H. Barr, P. W. Bruns, Geo. Duntun, Sam Hurwitz, the Rev. J. W. Meehan, R. B. Newcom, Mrs. Paul Ragan, and the Rev. P. F. Schrock.

## Costumes Shown In Library Display

An attractive exhibit of costume plates is on display at the library this week, according to Miss Lillian Dickson, librarian. These plates were loaned by Charles Horn, who collected them from French fashion journals. The fashions are engraved and hand-colored, dating from the early part of the 18th century.

Miss Frances Egge, head of the art department, has donated an 1850 Godey's fashion book, also on display. In conjunction with this exhibit of period fashions, Miss Dickson has several books dealing with modern trends of style.

## Twist Urges Purchase Of Auto Reflectors

Purchase of reflectors for student cars was urged today by Associated Student President Bill Twist.

Students may obtain reflectors for 25 cents from the business office located in the Board of Education building.

## Genius Registers Here -- First School Attended

By DICK WRIGHT and  
ED VELARDE

Santa Ana Junior college has a child genius!

He is 14-year-old Herbert Sullivan, who is registered here as a freshman from Newport Beach. But that's not all—jaysee is the first regular or private school that he has ever attended in his life.

Having been tutored only by his mother up to the present time, Sullivan entered jaysee as part of his preparatory work to entering Oxford university in England. Young Sullivan says he expected

and would like to enter Massachusetts Institute of Technology, but his mother, Mrs. J. H. Sullivan, revealed he would undoubtedly be entered at Oxford.

### SCIENCE MAJOR

Majoring in sciences here, the youth is preparing to be a mathematical physicist. He is now taking 16 1/2 units, including physics, chemistry, trigonometry, mechanics, and English.

One of the outstanding things about Sullivan is that he has passed the entrance examination to the California Institute of Tech-

nology. He is also the only person not a student who may check books out of the Cal Tech library.

### MATH FRIENDS

Purpose in entering Sullivan in school is, according to his mother, "to diversify his interests." Particular reason for entering Santa Ana Junior college is that his parents had heard reports that the local teaching staff is very outstanding.

Sullivan numbers among his many friends, eight of the world's greatest mathematicians with (Continued on page 3)

## Ghosts and Specters Will Frolic At WAA Party Next Thursday

Rustic barnyard decorations will be the setting of the Women's Athletic association Hallowe'en party next Thursday at Laguna Beach. President Peggy Paxton announced today. The party will be for the new and old members and each member is urged to wear an appropriate costume.

Members will meet in front of the gym at 5:30 p. m. before leaving for Laguna Beach.

Tickets are on sale today by W.A.A. cabinet members for 20 cents. All tickets must be bought by Tuesday evening, said Miss Paxton. No tickets may be obtained after that time.

Lorraine Sweet and Roberta Shaffer are in charge of the decorations. Games will be under the supervision of Mary Ann Low and Margie Brown.

## Acceptance Parties Held For Pledges

Five clubs began the initiation of pledges this week after feting new members with acceptance parties. The plans of other service clubs have not been announced.

### BACHELORS

Choice of eight pledges was the subject of the last meeting of the Brotherhood of Bachelors held this week at the home of Louis Markel, junior exalted of the club. Names of the pledges have not been announced.

### LAS GITANAS

Las Gitanas informal acceptance party for new members took place last night at the home of Miss Muriel Anderson, club adviser.

The initiation of pledges will begin today, Gertrude Yount, club president, stated.

### LAS MENINAS

Las Meninas held an acceptance tea, complimenting the new members, yesterday in the home of Dorothy Black. Aloen Miller, Helen Andrews, Isa Grace Young, Maxine Knight, and Mary Ann Low assisted Miss Black with the tea.

Plans for the formal initiation were discussed in the meeting held this week at the home of the club adviser, Miss Dorothy Decker.

### PILOTEERS

Formal initiation of new Pilot-er members will be held in the chapel of the Christian church at a date to be announced later, President Merle Swingle stated today.

The acceptance tea was held yesterday at the home of Mary Norwood. An informal initiation was held at that time. The Hallowe'en theme was carried out in the decorations and refreshments.

### SPINSTERS

New members of the Spinster's club were welcomed at a pot-luck dinner held at the home of Betty Hammond last night.

Pledges were informally initiated by old members during the meeting.

## Faculty Reception Attracts 500

More than 500 teachers were present at the faculty reception held Monday at Santa Ana Senior high school for the purpose of introducing new jaysee instructors to the City teachers' league.

The teachers were received by a reception committee consisting of Supt. and Mrs. Frank A. Henderson, Mr. and Mrs. T. H. Glenn, Mr. and Mrs. B. F. Enyeart, superintendent of Burbank city schools; Dr. Margaret D. Baker, Mr. and Mrs. George R. Wells, Mr. and Mrs. Harry Harlow, Mr. and Mrs. Marion B. Youell, Mr. and Mrs. Ridley Smith, and Mr. and Mrs. George D. Newcom.

Mr. Henderson gave a brief report of changes in the teaching personnel this year and introduced Dr. Harper, instructor at University of Iowa, the speaker of the evening.

## AGS Potluck Will Be Held On Thursday

Postponement of the pot-luck supper of Alpha Gamma Sigma, jaysee honor society, until next Thursday, was today announced by Miss Lella Watson, adviser of the organization.

"The meeting will be held in the Women's lounge," said Miss Watson. "Plans for the year will be discussed and officers will be elected at that time."

The meeting, originally scheduled for last night, was postponed because it conflicted with several service club rush parties.

## OK Club Members Asked For Dues By Beecher

All Orphan Kiddies must pay 50 cents for dues to Alice Wilkinson or Mary Malcom within the next two weeks, Fred Beecher, O. K. club president, said today.

The club is sponsoring a picnic at Jack Fisher park the latter part of this month, said Beecher. More than 65 students were present at the first meeting this year, almost doubling last year's attendance at any party.

## Calendar

Today—German club meeting.  
Tonight—Football—Citrus Junior college at Azusa.  
Monday, Oct. 17—YWCA meeting.  
Tuesday, Oct. 18—Tavern Tattlers meeting.  
Wednesday, Oct. 19—Faculty bridge party.  
Sigma Phi Sigma initiation.  
Newman club.  
Thursday, Oct. 20—WAA picnic.  
Friday, Oct. 21—Football—Pomona Junior college in Municipal bowl at 8 p. m.

## LAS GITANAS HEAD

GERTRUDE YOUNT, jaysee sophomore, who is serving as president of Las Gitanas. The service club will begin the initiation of new members this week.

## IRC-Phi Sigma Alpha To Organize Soon

Since all members and officers of the Phi Sigma Alpha, social science honor fraternity, graduated last June, its organization this year will be delayed for a few weeks. The International Relations club will be organized at the same time.

Orville M. Knutsen, adviser for the two organizations, takes over the duties formerly performed by L. Beeman, retired instructor.

All those eligible for Phi Sigma Alpha will be notified in the near future. The only requirement is that the student shall have taken six units in social science with an average grade of B.

The fraternity holds its meetings with the International Relations club, membership in which is open to anyone interested in social science.

## Devotional Meeting Will Be Held By YWCA

Y. W. C. A. members will meet in the home of Madelyn McDonald next Monday night at seven o'clock for a business and devotional meeting, it was announced today by Stella Christ, president of the organization.

The Y. W. C. A. cake sale held last Wednesday was a success, said Miss Christ. The money raised will be used to help send several Y. W. C. A. members to camp Asilomar during Christmas vacation. Elizabeth Welch and Helen Allison were in charge of the cake sale.

Forty-five per cent of all motorists injured in auto accidents are injured by flying glass, according to statistics.

## Pre-Med Society To Be Shelved

Because so few have expressed interest, Pi Mu Gamma, organization for pre-medical men attending jaysee, has been dropped this year, Frederick H. Schroeder, former faculty adviser for the club, announced this week.

"Meetings of the society have always been small informal gatherings," Mr. Schroeder said, "and since but three or four have expressed their interest this year, no attempt to renew the organization has been made, and no meetings have been held."

"It will be renewed, however, if it is desired," he concluded.

The organization, an extra-curricular activity for the past four years, was formed under the direction of Dr. Willis P. Baker, Associated Student physician. Last year's group, under the leadership of Tom Trawick, was composed of 12 members.

Observation and discussion of the latest in medical science were included in the activities of the organization.

## Tattlers To Initiate Members Tuesday

Tentative plans for the initiation of prospective members were made by members of the Tavern Tattlers at a meeting held this week.

Carroll Richardson, president of the Tattlers, stated that the first regular meeting of the year will be held at 7:30 p. m., Tuesday evening, in the home of Mrs. Eleanor Northcross, 1318 North Spurgeon street.

## Cecilia Ramirez Elected Spanish Club Head

Cecilia Ramirez was elected president of the Spanish club at the first meeting of the semester held this week. Other officers elected at the same time are: Isamu Masuda, vice-president; Aloen Miller, secretary-treasurer; and Norma Daly, reporter.

According to definite schedule recently drawn up, future meetings will occur on the first and third Tuesday of each month.

## Newman Club Plans For Picnic Dinner

Electing Jack Murphy president, members of the Newman club met last night at 7:30 in the Woen's Lounge. Plans were discussed for the next meeting, which will be a pot-luck dinner at Irvine park on October 16.

Other officers elected were: Don Schmuck, first vice-president; Ruth DeGunther, second vice-president; Margaret Schmitz, recording secretary; and Russell Langenbeck, treasurer. The two vice-presidents were placed in charge of the men's and women's membership.

## CAME THE DON

BY BETTY FRYE

Printed on Pigskin....I've never seen a redheaded bulldog, but Ed Becker crossing the line of scrimmage after the man with the ball comes pretty close to that description.

Have you ever noticed how nice Lynn Arnett looks in that green sweater?

To date, Weldon Holtzman is the most insubordinate freshman. Can nothing be done about it?

Best suggestion of the week comes from a freshman who is thinking of starting the W.G.S. (We Got Spurned) club....for those who were not pledged to any service club and are not too sad about the whole thing.

Dorothy Hess has an excellent sense of humor....as proved by the very amusing introduction to her freshman English autobiography.

Fred Eilers, present jaysee sophomore, is just as swell a person as his brother Floyd was last year. And that is saying a lot. Both are from Idaho.

Most interesting ambition I've heard recently is that of Chet Curl's, who intends to be a test pilot. He is already six and one half flying hours on his way to becoming one.

With the fall picnickers—Mary Ann Low makes a very nice dinner—outer-of spaghetti.

Phillis Krock and her load of passengers laughed when they passed Alexander, the Society press car, on the highway up to Irvine park. Wonder why? After all, her car is only a last year's Packard.

## Engineers Begin Semester's Work

With a demonstration on "Vapor and Lamps," the American Association of Engineers held their first meeting of the year last week. This is only the beginning of numerous programs planned for the semester's activities.

Exchange meetings with other chapters of the A.A.E., and a tour similar to the one taken to Parker Dam, Arizona, climax the year's program. Any student enrolled in the local engineering course is eligible for the club.

Officers for this semester are: Keith Tantlinger, President; Ted Rischard, vice-president; Warren Hall, treasurer; and Thompson McNeal, secretary; H. O. Russell is the club's adviser.

## "El Don Started Something"

"You bet El Don started something last week," said one freshman yesterday, "when it launched that football guessing contest in cooperation with the Salad Bowl. It is lots of fun whether you win or not."

Get in the contest today and leave your guesses in El Don's mail box in the college office by 4 p. m.

# Horton Elected Frosh Head

## All Offices Filled At Primaries

Only 134 freshmen students went to the polls Wednesday to elect freshman class officers, establishing a new low here for a college election turnout, it was indicated today by Bill Twist, Associated Student president.

Dick Horton carried the election for president with 70 votes, while Ralph Pagenkopp was elected vice-president, polling 75 votes.

Vivian Stanley and Louis Markel tied for the office of secretary-treasurer. Instead of holding a final election for this office, Jack Lentz, Associated Student vice-president in charge of elections, announced that Miss Stanley and Markel would assume the offices of secretary and treasurer, respectively.

Horton, Pagenkopp, and Markel are all members of the 1938 Santa Ana Senior high school graduating class. Miss Stanley is a graduate of Orange Union high school.

## Wayward Freshies To Face Justice

(Continued from page 1) which will act as a jury, promises adequate punishment for freshmen offenders. The defendants will be allowed to plead in their own behalf before Judge Bill Twist, and Prosecuting Attorney Bruce Buell.

**SOPHOMORES AID**  
Sophomores have been cooperating with the court committee in reporting the names of freshmen law-breakers.

Upper-classmen urged and called upon freshmen to remember rumors of last year's punishments and pointed significantly to the two hour program, Potter remarked.

**FINAL REGULATIONS**  
Five final reminders of what every freshman is not to do until after Kangaroo court include: Do not walk on lawns, do not sit on lawns south of the front walk, do not walk on sidewalks south of College hall, wear beanies at all times, and sit only on the north lawn bench.

## JC STUDENT MINISTER DEMONSTRATES

JACK HUTTON, sophomore student who registered here this week, is pictured above caught in action delivering a sermon at the Santa Ana Church of Christ where he is assistant pastor. Hutton says he detests the picture, and El Don was rather hesitant to print it, but here it is. (Picture courtesy of L. A. Times.)

## New Prize Offered For Winner Of El Don's Football Contest

El Don's football guessing contest entered its second week today with a record number of entries expected by 4 p. m. when all predictions are due in the mail box in the college office.

Winners this week will have an additional prize awaiting them as the Sun Cleaners, located across the street from College hall, yesterday offered to donate a \$1 cleaning order each week in addition to the \$1 merchandise order given by Phil Hay of the Salad Bowl. Hay is announcing last week's winner in his ad on page five today.

### CONTEST RULES

The rules for this week and every week are the same as announced last Friday. Here they are, however, for those that did not enter the first contest:

- (1) All junior college students and faculty members, except members of El Don's editorial staff, are eligible.
- (2) Check the teams

(Continued on page 4)

## Tryouts Scheduled For Music Club Today

Auditions for membership to the Sigma Phi Sigma, music club, will be held in Bungalow A, this afternoon, Director Anna May Archer stated today.

"Students who can render a comparatively good solo in singing or playing an instrument are asked to try out," Miss Archer said.

A formal initiation of the organization will be held Oct. 25.

## Fete New Faculty Members Oct. 19

New members of the jaysee faculty will be entertained at the home of Mr. and Mrs. Calvin C. Flint, 1927 Heliotrope Drive on Oct. 19. Hosts for the evening are Mr. and Mrs. Flint, Mr. and Mrs. D. K. Hammond, and Mrs. Eleanor Northcross.

New college instructors who will be honored are Dr. Kramer J. Rohlfleisch, Mrs. Margaret Householder, Orville M. Knutsen, Leonard F. Tate, Miss Alice Smith, and Dr. Kyle A. Lyon.

## JAYSEE ALUMNI RETURN FOR HOMECOMING WEEK

Campus Clubs Arrange Many Different Parties And Dances For Former College Students

Plans for the first Homecoming week to welcome returning SAJC alumni are rapidly developing, Alumni President Otto Grigg announced this week.

Homecoming week, inaugurated this year by the Alumni association as the first in a series to be held annually in the future, has been set for Oct. 27 to Oct. 29, inclusive.

### ATTEND GAME

The week of festivities is to reach a climax with the San Bernardino Junior college-Santa Ana football game in the Municipal bowl.

Committees, who will begin preparations next week, will be composed of members chosen from jaysee campus clubs and student organizations. Each group is to have charge of a social affair during the week, for the purpose of receiving and entertaining the anticipated large delegation of returning alumni.

### MANY ACTIVITIES

Dates of parties, luncheons, dinners and dances to welcome past members of the campus clubs, and a program of general entertainment for the guests will be announced next week.

## Funeral Held For Verne Wilson

Funeral services were held Monday for Verne Wilson, 27, junior college graduate and well-known native of Santa Ana, who died Thursday, Oct. 6, at the Ventura county hospital. His death was caused by a basal skull fracture which he suffered in a motorcycle crash north of Ojai.

The accident occurred Oct. 1 while he was riding on the back of a motorcycle operated by a friend and the vehicle collided head-on with a car. Mr. Wilson was a former linotype operator here, but at the time of his death he was employed as an operator for the Ventura Star-Free Press.

Mr. Wilson was a brother of Miss Edna Wilson, former editor of Del Ano, who is now society editor on the Star-Free Press in the northern city.

## Coming Assemblies Plans Announced

"Assemblies that have pep, personality and a splash of originality are what we aim to give the students this year," Roy Potter, commissioner of assemblies, stated today.

The next two assemblies are scheduled to furnish a variety of entertainment, Potter said.

On October 19, Delmar Taylor and his swingsters will entertain the Associated Students.

## Child Genius Is Student Here

(Continued from page 1)

out assistance of any kind. At nine, he assisted his lawyer father in looking up material for his cases. His father at that time was a practicing lawyer before the Supreme Court.

It was during his residence in Washington, D. C. that young Sullivan became acquainted with many of the country's outstanding political and scientific figures.

### LIVES IN EUROPE

Although born in Washington, he has spent half of his life—seven years—in Europe where he mastered French and German. He celebrated his fourteenth birthday last August.

What young Sullivan does to get all his knowledge is read, read, and read. He never studies, but merely reads books, magazines, and any other thing which interests him. And afterwards he has complete mastery of the subject.

When he is vitally interested in a subject, his mother explained that he will read on it for hours. Even bedtime means nothing to him, for he continues to increase his knowledge until he is satisfied with his studying.

### RABID READER

The genius is interested in all phases of scientific discovery. He is a rabid reader of many scientific magazines, papers, and treatises and is capable of understanding articles which are very scientifically and technically written.

When professors and scientists at the University of California at Los Angeles meet to discuss scientific problems, young Sullivan is always an invited guest.

The Radio Corporation of America is but one of several companies which has offered to pay for Sullivan's education in return for his services upon graduation. All these offers have been refused to date, his mother stated.

### LIKES JAYSEE

Admitting that the question whether or not he liked jaysee was unfair, inasmuch as he had never attended any kind of educational institution, Sullivan did reveal his like for the college.

## Five Cities Present Civic Programs

Many distinguished speakers have been secured for the autumn program of the Adult Civic Education program of Orange county, it was learned today. The school districts participating this year are Fullerton, Garden Grove, Laguna, Newport Beach, and Santa Ana.

All local meetings will be held in the Willard auditorium each Monday evening at 7:30 o'clock.

Opening the season this month, Dr. George Bemis of U. C. L. A. is devoting the first of his discussions to conferences regarding the measures to be presented on the ballot in November. An opportunity for full and free discussion pro and con on these measures will be presented.

Following Dr. Bemis in November will be John C. Duvall of Syracuse university, instructor of sociology there.

## "DON Of The Week"

Use your "Citrus Program" as a ballot to vote for the best Santa Ana player in tonight's game at Azusa. Put a circle around the name of the man who in your opinion was the most outstanding.

The player securing the largest vote will be named "DON OF THE WEEK" and be given a VANDERMAST gift or merchandise order.

Deposit your vote before Wednesday, October 19th, in ballot box at Vandermasts.

Last Week's Winner

Don Borden

Vanderma's CLOTHIERS

Fourth at Sycamore

When the whistle blows tonight, it will mark the opening of conference play for Santa Ana. It will also notify local fans that unless some of our standouts recover from injuries, our time has come to be removed from our kingpin position.

Johnny Joseph is still on the shelf with that old shoulder injury. Arnett's ankles aren't getting stronger every day... and at the rate of tape consumption needed to re-enforce them, he will be a first class tape worm before the season wanes.

Other first stringers on the maimed column include Bill Twist, halfback and Virgil Stevens, who may not play tonight because of leg injuries.

If and when the Board decides to give the squad a respectable water wagon, they might make room for a collapsible stretcher and first aid kit to be carried along into the field.

Railbirds are sagely saying that Riverside is the "team to beat." That may be true, but our guess is that we had better come out of our corner fightin' when we meet up with Chaffey.

Ernest "Sir Reginald" Butterworth was on the sidelines with Bill Cook last week. It recalled the time when our former rugby coach went into a spring dance when one of his multiple-pass plays went for a 44-yard gain against Glendale. Loyola made the error of letting him go last year, but they recovered their own fumble so to speak and he's back in the Lion's lair.

Blas Mercurio and Walt Opp, last year's grid flashes, are on the Redland's first string with Carl Lehnhardt, blocking half on last year's team.

Another former Don who is making good is John Lehnhardt, '36 brother of Carl. He's at 'ole Mississippi. They're the ones who upset the highly touted Louisiana U. eleven. One publication nominated the former Santa Ana jaysee flash for All-American honors.

## Former J. C. Star Greatly Improved

Improvement was noted today in the condition of Art Craft, Orange, all-conference guard on the jaysee football team of 1935. He is recovering from blood poisoning, which resulted in pneumonia.

With the help of several blood transfusions, the ex-Don athlete passed the crisis a few days ago, doctors said.

# Santa Ana Travels To Meet Citrus

## S.A. Rugby Team May Play at Fair

Possibility of the jaysee's coming rugby team to appear in an exhibition game at the San Francisco 1939 World's Fair was hinted today by Ernest Butterworth, former rugby mentor and assistant of Coach Bill Cook.

The Southern California Rugby association has been forwarding plans to select two junior college and two college teams to stage the contest, it was said.

### BUTTERWORTH AT LOYOLA

Mr. Butterworth was an interested onlooker at the game last Friday night. He has been assisting Coach Tom Lieb at Loyola in the art of tossing laterals and other phases of razzle-dazzle football for which the Lions are noted.

The fine showing of former jaysee rugby teams and the prospects of a good team this year affords Santa Ana an excellent chance of being one of the junior colleges chosen.

Butterworth was former rugby coach here for two years, and was responsible for the teams that managed to establish a high record by trimming a number of college teams.

## Netwomen Vie For Team Positions

Keen competition is being waged among the feminine tennis enthusiasts of jaysee, for positions in the forthcoming mixed doubles tournament with Long Beach jaysee, Miss Zena Leck, women's physical education instructor, stated today.

There has been such a large turnout this year that the women's coach is trying to obtain the high school courts for practice during the week.

### SOPHOMORES RETURN

Three returning sophomores girls, Irene Noble, Jane Nalle, and Mary Ann Low, will give the incoming freshmen much competition, added Miss Leck.

Heading the list of newcomers is Juanita Lugo from Newport Harbor, who has good prospects for topping the ladder. Close behind her are Lydia Elliott and Patricia Whitson, also from the outlying beaches. Demonstrating Montana's technique is Eulale Jones.

## Don Borden Named Don of The Week

Quarterback Don Borden, freshman from Oceanside, was chosen the Don of the week, it was announced today by Vanderma's clothing store, sponsor of the grid popularity contest.

Borden is the second winner of the weekly vote made by the fans who attended the game and marked their programs for the outstanding Santa Ana player.

## PASS COMBINATION

LYNN ARNETT will be on the firing end of his accurate heaves which usually go for substantial gains. If his ankle injury permits him to see much action against the Owls, he may toss the Dons to victory.

TED DEVELBISS will be on the receiving end of quarterback Lynn Arnett's rifle passes which have caused opposing secondaries much confusion. The Don end scored on a pass last week against U. C. L. A. Frosh.

## Three Teams Lead In League Play

Eastern Conference football began last week with all members playing conference games except Santa Ana.

Chaffey upset the favored Riverside Tigers 2-0 when a blocked kick resulted in an automatic safety.

The light Citrus Owls were badly crushed by the San Bernardino eleven, 29-0.

Fullerton, with its strongest team in several years, won from Pomona 19-13.

### EASTERN CONFERENCE STANDINGS

|                |        |   |       |
|----------------|--------|---|-------|
| Chaffey        | .....1 | 0 | 1.000 |
| San Bernardino | .....1 | 0 | 1.000 |
| Fullerton      | .....1 | 0 | 1.000 |
| Pomona         | .....0 | 1 | .000  |
| Citrus         | .....0 | 1 | .000  |
| Santa Ana      | .....0 | 0 | .000  |

## Locals Begin Conference Play With Owls At Azusa Tonight

When the Santa Ana Junior college Dons invade Azusa tonight for their conference opener with Citrus, they will be opposed by what is considered the most unorthodox team in the league. The game begins at 8 o'clock sharp.

## New Prize Offered In Grid Contest

(Continued from page 3)

in the list of games printed that you think will win. Do not give the scores. (3) All entries must be in El Don's box in the college office by 4 o'clock each Friday.

### GAMES LISTED

Below is this week's list of games to be played during the week-end. See how well you know your football teams!

|              |                     |
|--------------|---------------------|
| Santa Ana    | .....Citrus         |
| Riverside    | .....Fullerton      |
| Pomona J. C. | .....San Bernardino |
| Pomona       | .....San Diego      |
| California   | .....UCLA           |
| Gonzaga      | .....Idaho          |
| Stanford     | .....Oregon         |
| Oregon State | .....Wash.          |
| Army         | .....Harvard        |

| Northwestern | .....Temple         |
| Bucknell     | .....Oklahoma       |
| Kansas       | .....Wash. State    |
| U. S. C.     | .....Anaheim        |
| Tustin       | .....Vanderbilt     |
| Mississippi  | .....Dartmouth      |
| Brown        | .....Name           |

## JC To Have Swim Team This Year

Santa Ana will have a swimming team again this year, it was learned today despite the rumor that Jess Haxton, last year's coach of the paddlers, had been dismissed.

The physical education department is now attempting to obtain from the WPA administrator a release for Haxton from the grammar school, where he is playground instructor, that he might be able to coach the swimming team here.

### WILL HIRE COACH

"In the event that Haxton is not available, a new swimming coach will be secured," stated Director D. K. Hammond.

There are only a couple of swimmers left from last year's squad of seven men. However, several promising freshmen will see action this year.

Coach Bill Cook says that it is impossible to tell what the Owls will do, especially on fourth down. At such times Citrus has passed or ran and eventually has caused the downfall of what were considered pre-game favorites.

### ARNETT OUT

The Dons will field practically the same team that showed so much improvement in last Friday's game with U. C. L. A. frosh. The quarterback position will be lacking the capable Lynn Arnett due to the injury of his ankle in that game. However, the post will be filled by either Don Borden or Larry Monroy, who have shown strength in previous games.

This year Citrus boasts a much better lineup, and held San Bernardino, last year's co-champions to a single touchdown until the fourth quarter. Then the Owls weakened and the Indians ran up 23 more points.

### PASS DEFENSE GOOD

Santa Ana may have trouble in completing passes with halfback Wallace in the Owl lineup. He has displayed great ability on pass defense. On offense Phil Pavelko, fullback, is their main threat.

The Cookmen will have a decided advantage in weight. The Owl line averages 179 pounds, while the backfield averages 171 pounds.

In pre-conference games the Dons have scored 59 points to their opponents' 44. Citrus, on the other hand, has scored no points, while Loyola frosh has scored 13 points and San Bernardino, 29 points. The last was a conference game.

### PROBABLE STARTING LINEUP

| SANTA ANA Pos. | Citrus         |
|----------------|----------------|
| DeVelbiss      | .....LE        |
| Becker         | .....LT        |
| Mickelwait     | .....LG        |
| Lentz          | .....C         |
| Kotlar         | .....RG        |
| Nehrig         | .....RT        |
| Nunez          | .....RE        |
| Monroy         | .....Q         |
| Beck           | .....LH        |
| Twist          | .....RH        |

## Attend Social Events

Undoubtedly the fall picnic last Tuesday was a success. Inaugurating this year's social season, the picnic showed promise of being the predecessor to many well-attended affairs.

The next important event on the social calendar is the Soph-Frosh dance Oct. 29. Save the date. This is your chance to become acquainted with your fellow students.

This is your opportunity to orientate yourself for all coming social events. Don't waste it!—M. M.

## Same Old Thing

Tonight opens the conference play for the football team.

With the first game scheduled for foreign soil, the team needs the support of the students more than ever.

Citrus students and friends will be out there to cheer their team on. We don't want an empty section where Santa Anans are supposed to be.

The way we attend and act at other games will set the pace for the other jaysees as they come to Santa Ana.

Let's go to Citrus and give the boys our full support.—R. L.

## Carelessness and Fires

This week, October 10-16, is Fire Prevention week.

Throughout the nation, citizens are being urged to "Be Careful." Carelessness is one of the greatest causes of fire damage, and one of the most needless.

Certainly, no one loves a fire, spectacular as it may be. Aid the firemen who protect your lives and property daily. Let Fire Prevention week be every week in the year.—E. C.

## On Pledging

Pledging starts this week for the jaysee "service" clubs.

Out of the entire enrollment about 200 will be pledged into these organizations. To the 700 who will not be pledged we say do not be discouraged—clubs are but one phase of college life. You will find it just as easy to get along in college and to make friends without the aid of these organizations.

To those who are pledged to a club we urge you to take this pledgship seriously. Remember you are joining an organization that pledges service to the college.

You are the future leaders of these organizations, so let's have a little service combined with social activities.—R. W.

## Contrast In Civic Pride!

The school board reports that there is a law, Section 3370, that prevents any junior college district from charging tuition for any student over 18 years of age who, in the judgment of the principal is capable of profiting from the instruction offered in the junior college.

If this be the law, then there is a very strong additional reason why the people of Santa Ana would be only greatly and perpetually adding to their already heavy tax burden to add an attractive building to attract more out-of-state students and, thus, reduce their own wages and living standards by increasing taxes.—SANTA ANA REGISTER, Sept. 16.

Included in the 1103 students now enrolled at jaysee, are 175 from outside this high school district, 50 of these, in fact, coming from outside the state. From every one of these outside students, the district receives payments varying from \$84 a year to \$160; these total the tidy annual sum of \$25,000 which goes to help balance the budget.

In addition, of course, the 175 students rent rooms, buy meals, clothing, transportation and various supplies. In some cases, their families move to the city or visit here from time to time. These students contribute to the school life, to the community life, to the business life of Ventura, and, any way you look at it, are an asset.

This is a fact we too often overlook. Yet it is a truism that a college is one of the most wholesome and beneficial institutions a city can possess. . . The Star-Free Press recommends, by all means, a "Yes" ballot.—VENTURA STAR-FREE PRESS, Sept. 21.

(Editor's note: Ventura and all other junior colleges in the state are governed by the same law as Santa Ana. The Ventura school bonds passed by an overwhelming majority vote of more than 5 to 1).

## But It's True

Mr. Baird's tooth grew the wrong way. When he has his teeth cleaned he has that one cleaned too.

The horse performs ordinary farm duties, is said to be more efficient than its four-footed contemporaries.

## Sob Stories, Confidence Profitable Now

### 'APPLE POLISHING' OUTMODED

Old-time methods of bringing teacher a well-polished apple each morning have vanished into oblivion, along with hoop-skirts and waxed mustaches. Such tactics are today considered old-fashioned by any self-respecting student.

It is recognized that apple polishing has a technique all its own; one that is developed with more subtleness, more finesse than previously, and one with so many variations that it has become an art.

#### CAREERS CHANGED

Little confidential chats before or after classes have been known to change whole careers.

Pick the time when teacher is not too busy to explain why you couldn't do your geology last night. Gradually divert the talk into other channels. Admire his new tie, or announce that he and his wife sat behind you at the preview. And his children are simply grand, and you could tell that they were as clever as could be.

#### SOBS PROFITABLE

Sob stories, if well done, are nearly always profitable at grade time. A good tale with the

right amount of pathos has melted many a stony heart. Don't feel idiotic when relating that Aunt Clara has head-aches, and must be read to, leaving no time for homework.

A sure-fire way to attract attention from a professor is to send him a 5-cent postcard at Christmas; this method usually ends in raising your C to a B.

#### VARIATING POSSIBLE

Variations of these themes can be worked out. Get your apple polishing done early this year, and relax when grades are handed out; what's a grade or two?—AUDREY WILLSEY

## Cats Scare Dictator Mussolini Afraid

Benito Mussolini, prime symbol of all that is powerful in present-day Italy, conqueror of Ethiopia, planner with Adolph Hitler toward a "greater empire" in Europe, is afraid of cats, and has a mortal fear of small, cooped-up rooms or buildings.

The first fear is not easily explainable; the second one is.

#### DARK PAST

In the dim dark past of the dictator's career, there was no such thing as power. The leader-to-be told fortunes to a slovenly superstitious landlady in payment for a slovenly squalid room in which to exist. There were jails and jail terms—ten in all—during that early period.

The finely wrought nature of Mussolini chafed against such restraint. Today he is a claustrophobe (a person who has a dread of being in close rooms and shut up places.) In his own specially built automobile and airplane, he reaches speeds over 100 miles per hour on the highways and more than three times that rate in the air, in a vain effort to rid himself of his one unvanquished enemy—himself!

#### ASTROLOGY BLAMED

Mussolini's fear of cats is more difficult to trace. It is probably due to his only scientific interest, astrology. Taught him as a boy in Southern Italy by Giovanna, the lone witch of the province, astrology has guided the dictator throughout his life.

Through 16 attempts on his life, including bullets, bombs, and poison, the "little giant" of Southern Europe has shrugged his shoulders, believing implicitly in the power of the stars over his life.

#### LIVES DANGEROUSLY

Mussolini lives, as he states it, "recklessly" under the protection and influence of astrology, and believes—cats or no cats—that he will die between the covers in his own gigantic bedroom.—CARROLL RICHARDSON.

## Student Is 'Monk' Photo Printed

Last year when Miss Gloria Kirchner, jaysee student, posed for an internationally famous photographer, William Mortensen, little did she realize the publicity that lay in store for that setting.

Miss Kirchner, who is an attractive member of the college paper staff, first made the news by appearing as a "Tibetan Monk." The photo then displayed showed a weird portrait of what seemed to be taken in far away Tibet.

#### SHOWN NATIONALLY

This strange picture was none other than Miss Kirchner made up in the regalia of the mysterious East. So skillfully done was the work of makeup that it won recognition throughout the country.

In the July issue of a nationally circulated photography magazine, there appeared on a two-page layout the picture of the Santa Ana co-ed and on the adjoining page, the portrait of the monk. The accompanying story told of the detailed work done by Mortensen in making the transformation.

#### BRIGHT FUTURE?

From present indications, the journalism student may have a bright future in store for her in the field of professional photography. Many models of this type have graduated from still scenes into the living pictures on the screen at Hollywood.

Few persons are aware of the number of angles which must be tried, the poses that must be tested, and the make-up put on, in a picture of this kind; a picture about which the public may say "I could have done better; it isn't hard."

Ask Gloria Kirchner.

TOM POWELL

## Students On Parade Names Make Story

There are 13 Smith's, seven Browns, and one Jones (the Jones sisters must have enrolled somewhere else) in college this semester.

New names make a new story, so here goes.

Once upon a time there was a Carpenter, who was a Triplet, and who had a Whitehead with a Curl. He also had Lillywhite hands. He lived on a Hill which had several Wells in a Cave, from whose Sweet Waters the Stock drank.

#### FORD HITS FLOWER

The Carpenter was not a good Gardner and only grew one Flower. A hit-and-run Ford, which seldom Harms anyone, pressed it smaller than a Speck. Then the Carpenter began a Hunt for the Ford owner.

#### POPE PIAS MET

He looked high and Low and Long. First, he went to the West where he met a Knight, who sent him to a Neighbour, who sent him to Pope Pias, who sent him to the Priest, who sent him to the Miller, who sent him to the King.

Finally, one of the English Hicks directed him to a Messenger who owned the Ford which had smashed the Flower. The Carpenter plunged a Dart through the Hart of the Ford owner, and he said Farwell.—GLADYS WILCOX

## El Don Mail Box

SANTA ANA, (To the Editor of El Don): Last Friday night the flashlight section was unable to function for lack of members. The stunt required only 85 students and we have 165 signed up. In other words only 50 per cent that signed up held to their agreement. Barring 10 per cent who had legal excuses for not attending, there was 40 per cent who thoughtlessly did not heed their pledge. What is the matter?

The committee and myself have limited the work and trouble on the students' part to the nth degree. We give them gym cuts for coming out; in other words, we have to bribe them to attend. We have bought flashlights and batteries and were able to sell them at drastic reduction. We have given them the best seats in the Bowl. In return for this all we asked was that they would turn out to our practices and the games. All they have to do is bring their flashlight and push the button. Surely this isn't a too difficult job. But last Friday they did not support us. What is the matter?

Little do the students realize the work and worry that is detailed to this function. Hundreds of slips must be made and filled out, all the work evolving the cuts must be attended to, the bother of collecting and handling the flashlights. Hours upon hours have been spent in making the reflectors and slides, and the college has spent money to buy the materials. All of this work is done gladly and cheerfully by us. All we ask is a little cooperation. But we seem to have a hard time securing it. What is the matter?

The trouble is that we do not have the RIGHT KIND OF COLLEGE SPIRIT. Last Friday I was standing over on the UCLA side of the Bowl and when the announcement was broadcast that the flashlight stunt would not be performed, a student, presumably of UCLA said, "I heard about this stunt of Santa Ana Junior college and I sure wanted to see what it was like." And if I may add, bad news travels much faster than good news.

It is up to the students of junior college whether or not they want to continue the flashlight section. If they don't, alright, and if they do, the committee and myself will do everything in our power to make it a success. So when the next practice is called, turn out and support it. Try to make up for what we lack in buildings with good college spirit. It is a small but important task. What do you say?—DONN HART, Chairman, Flashlight Section.

## Bits o' Humor

Have you ever taken a "short cut home," and found it turned out to be a long ride in the country?

\* \* \*

Frozen Asset: Scotchman's bank account.
